

34:1 HYDRA-CLEAN PRESSURE WASH UNIT

The 34:1 Hydra-Clean Pressure Wash Unit is designed for high pressure and high volume cleaning. This powerful pump lowers labour costs by reducing the time it takes to complete the toughest of cleaning tasks.

- Safe, non-sparking, air powered motor
- Flow rates up to 34.6 Ltrs / Min (9.2 gpm)
- Constructed for durability and reliability
- Mounted on a heavy duty, two wheel cart

The 34:1 Hydra-Clean consists of a DURA-FLO™ fluids pump powered by a PREMIER™ air motor. The air motor is engineered to provide both high pressure and high flow, the patented ice-free air valve prevents ice-related failures.

The four-way slide valve provides reliable operation, even with dirty, non lubricated air. The fluids pump provides high output flow per cycle, reducing rod and cylinder wear.

Typical Fluids Handled:

- Detergent solutions
- Degreasers
- Chemical Solutions

SPECIFICATION

Weight and Dimensions:

(L) 83cm x (W) 72cm x (H) 132cm

Unit Weight: 130kg

Air Consumption:

Requires a supply of air between 20 to 100 psi (1.4 to 6.9 bar)

RENTAL

The 34:1 Hydra-Clean is available for rental (short term or long term) and is supplied complete with:

- 50ft of 1" Anti Static Air Supply Hose and Fittings
- 50ft of 3/8" HP Twin-Wired Jetting Hose and Fittings
- ITS Lance Gun Assembly
- Copy of Operating Manual
