

## RIGVAC UNIT

The Rigvac Unit is the ultimate portable vacuum unit. The air driven unit will recover a variety of fluids in drilling and environmental applications.

- The unit is small and easily manoeuvrable and can be used in confined spaces
- The pump unit is housed in a robust stainless steel frame
- Automatic continuous suction / discharge cycle
- Capable of handling liquids with solids content of up to 15%

The Sludge Pump at the heart of the unit is an air operated heavy duty pump that has been designed for constant use and with minimum moving parts ensures ease of on-site maintenance.

By having the 2" Suction Tube the Rigvac Unit is more versatile for clean up applications.

- Operates on a single venturi
- Uses a single ejector which requires no priming
- 80% maximum vacuum
- Will vertically lift 25ft of fresh water
- Will vertically lift 20ft of 10 ppg fluid

### SPECIFICATION

**Weight and Dimensions:**

(L) 79cm x (W) 47cm x (H) 124cm

**Unit Weight:** 82kg

**Air Consumption:**

Requires a supply of air between 90 to 110 psi (6.2 to 7.5 bar)

### RENTAL & PURCHASE

The Rigvac Unit is available for rental (short term or long term) or purchase and is supplied complete with:

- 25ft of 2" Suction Hose and Fittings
- 25ft of 2" Discharge Hose and Fittings
- 50ft of 1" Anti Static Air Supply Hose and Fittings
- Stainless Steel Suction Tube
- 2 Black Plastic Gulper Nozzles
- Copy of Operating Manual
