

SV60-V GUZZLA™

The SV60-V Guzzla™ is a one man vacuum loading, pressure discharge pump capable of recovering and transferring up to 10,000 litres per hour of almost any flowable material.

- Fully Portable
- No moving parts in contact with product
- High solids content transfer (80%+)
- Air driven, can be safely operated in hazardous areas

The SV60-V generates over 23"hg of vacuum combined with high airflow which allows the unit to transfer materials ranging from oil sludge through to cementitious powders and grains.

The SV60-V can handle solids up to 50mm (2")

Applications include spillage recovery and transfer, sump cleaning and desilting, pneumatic excavation, high solids content transfer, oil based mud transfer and pit cleaning, bentonite, sand, and cement powder transfer.

SPECIFICATION

Weight and Dimensions:

(L) 90cm x (W) 70cm x (H) 110cm

Unit Weight: 198kg

Air Consumption:

Requires supply of air between 85 to 110 psi (5.9 to 7.5 bar)

RENTAL & PURCHASE

The SV60-V is available for rental (short term or long term) or purchase and is supplied complete with:

- 16ft of 3" Suction Hose & Fittings
- 32ft of 3" Discharge Hose & Fittings (2 x 16ft Lengths)
- 50ft of 1" Anti Static Air Supply Hose & Fittings
- Pick up Nozzle
- Copy of Operating Manual
